Your Gateway to Efficient Connectivity

Kvaser mounting brackets provide a new way to secure your Kvaser interface, reducing potential for cable wear and improving the tidiness of the installation. These professional-grade 3D printed brackets are lightweight and can be easily mounted with double-sided tape, yet are sturdy enough to be securely fastened with screws via the pre-drilled holes on either side of the bracket, without adding unnecessary bulk to the device.

The material used to 3D print the brackets, PA 2200, is a robust, high-performance alternative to plastics like ABS. Resistant to chemicals, environmental and UV degradation, these mounting brackets are perfect for your toughest installation.

Warranty
