

Kvaser 5-Channel Family Mounting Brackets

Your Gateway to Efficient Connectivity

Kvaser mounting brackets provide a new way to secure your Kvaser interface, reducing potential for cable wear and improving the tidiness of the installation. These professional-grade 3D printed brackets are lightweight and can be easily mounted with double-sided tape, yet are sturdy enough to be securely fastened with screws via the pre-drilled holes on either side of the bracket, without adding unnecessary bulk to the device.

The material used to 3D print the brackets, PA 2200, is a robust, high-performance alternative to plastics like ABS. Resistant to chemicals, environmental and UV degradation, these mounting brackets are perfect for your toughest installation.

Warranty

2-Year warranty. See our general conditions and policies for details.

Kvaser 5-Channel Family Mounting Brackets

Major Features

- Set of two
- Distance between pre-drilled mounting screw ports: 86.5 mm
- Made of PA2200
- Resistant to UV degradation
- Lightweight
- Compatible with J1939, CANopen, NMEA 2000® and DeviceNet. Higher layer protocol translation handled by the user's application. For software support please see our Technical Associates products and our Software Download page (www.kvaser.com).

Technical Data		
Certificates	CE, RoHS	
Dimensions	30 x 100 mm	
Material	PA2200	
Weight	25 g	

Support

Documentation, Kvaser CANlib SDK and drivers can be downloaded for free at www.kvaser.com/downloads.

Kvaser CANlib SDK is a free resource that includes everything you need to develop software for the Kvaser CAN interfaces. Includes full documentation and many program samples, written in C, C++, C#, Delphi, Visual Basic, Python and t programming language.

Kvaser CAN hardware is built around the same common software API. Applications developed using one device type will run without modification on other device types.

Compatible devices:

Product name	EAN
Kvaser Memorator Pro 5xHS	00778-9
Kvaser USBcan Pro 5xHS	00779-6
