

Kvaser OBD II Dsub9 Adapter 30 cm

EAN: 73-30130-01391-9

ABOUT

With a standard 9-pin Dsub at one end and a 16-pin OBDII connector at the other, this 30 cm cable connects the Kvaser Leaf v3 or any CAN interface to any vehicle with an OBDII port. Kvaser's adapter cables have a ruggedised construction that meets demanding use cases. An in-house designed compact OBDII connector attaches to the cable with extra strong strain relief, allowing the cable to bend easily to 90 degrees.

TECHNICAL AND MATERIAL DATA	
# of can channels	1
Certifications	CE, RoHS
Connector	OBDII Type B Dsub9
Length	300 mm
Operating Temperature Range	-40 °C to +85 °C
